S&P Managed Futures Index	4.49%	3.36%	like-for-like	7.32%	

The Global Markets Fund advanced 4.70% in May to bring the YTD return to -6.62%. We booked significant gains in the interest rate sector, as rates drifted higher on speculation that further hikes may be in store in Europe. Equities also made a positive contribution as the major indices firmed up strongly on a wave of takeover speculation. We took losses in the metals basket: copper fell back on concern that Chinese demand will slow.
